DETAILED ACTION

This action is in response to Amendment filed November 21, 2007. All applicant's arguments were considered.

Response to Arguments

Applicant's arguments, see Amendment, filed November 21, 2007, with respect to the rejection of claims 1, 45 and 46 have been fully considered and are persuasive. The rejection of claims 1, 45 and 46 has been withdrawn.

Applicant submitted a translation of the foreign priority documents which rendered the prior art references available only under 35 U.S.C. 102(a) or (e). Applicant then provided a statement of common ownership under 35 U.S.C. 103(c) to disqualify the reference as prior art.

Election/Restrictions

Claim 1 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 4-20 and 23-44, previously withdrawn from consideration as a result of a restriction requirement, November 1, 2005 hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on**

November 1, 2005 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with January 15, 2008 on Douglas Holtz.

The application has been amended as follows:

-- Claim 23. The total internal reflection fluorescence microscope according to claim ~~[[21]]~~ 20, wherein each of the plurality of laser introduction sections comprises a conversion lens unit which ~~everts~~ converts a numerical aperture of the laser beam incident upon the condensing position without changing the condensing position of the laser beam. --

Allowable Subject Matter

Claims 1, 4-20 and 23-46 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest a reflection mirror moving section which moves the reflection mirror in a translatory manner, with respect to the condensing lens, in a direction that is substantially perpendicular to the light path of the transmitted illuminative light from the light source, such that when the mirror moving section moves the reflection mirror, the path of the laser beam reflected by the reflection mirror remains substantially parallel to the light path of the transmitted illuminative light.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
